THE SECRET OF AN EXTRAORDINARY
COFFEE LIES IN THE ALUMINUM COLLECTOR
OF OUR OLLY MOKA.

Thanks to its porosity, aluminum becomes a
faithful ally in capturing and preserving the
intricate aromas, and then releasing them into
every single prepared cup.

**Every sip is a sensorial journey, an experience
that celebrates the art of coffee through the
permeability of a material that elevates taste to
a new dimension.**

ART 2102 1-2 CUPS | ART 2104 3-4 CUPS

AVAILABLE FROM MAY 2024
